DISTRICT4-WEBSITE.ONRENDER.COM

JUNIOR SOFTWARE ENGINEER — REMOTE OR LOCAL (WILLING TO RELOCATE)

CS grad with 6+ years of project work in TypeScript and C#, and a passion for innovation, critical thinking, and taking the initiative. Shipped a studio website (District 4) on Render, built and released small game demos, and continues to pursue challenges through personal projects and DSA practice. Proficient in using AI assistance to discover and refine strategies.

Projects

District 4 Website / Sole Developer (September 2026) — Vite, Express, Postgres, argon2

Source Code — <https://github.com/JASteads/District4-Website>

Web URL — district4-website.onrender.com

Project Type — Deployed studio site: Public blog, gallery, and product library

Description — Utilizes user auth, role-gated admin CMS, a custom article parser, and Postgres-powered data retrieval.

Cat Clicker / Sole Developer and Game Designer (2020–Present) — C#, .NET, UnityEngine

Source Code — <https://github.com/JASteads/Cat-Clicker-2025> (Images included)

Project Type — Indie videogame production (idle clicker)

Description — Actively building a game that puts an immersive twist on the idle genre with a fun story about technology and the meaning of infinity. Applies user feedback via one-on-one conversations and community discussion on Discord.

OsuDecompPro / Sole Developer (July 2021) — C-programming language, stdlib.h, Batchfile

Source Code — <https://github.com/JASteads/osuDecompPro> (Images included)

Project Type — Low-level file decoding/encoding

Description — Exercised extensive bitwise operations, file I/O, and memory allocation to decode stage files from the game Osu into programmable objects. This enables developers to use customized editors to modify the decoded data and re-encode into playable stage files using osuDecompPro.

Languages & Frameworks

Web — HTML/CSS, TypeScript, Vite, Express, Postgres, Node.js

Other — C/C++, .NET, UnityEngine, Discord API, WinForms, Python

Skills

- AI-assisted Development
- Custom Systems & Design
- UI/UX Design
- Full Stack Web Development
- Database Engineering
- MVC System Architecture
- Agile/Scrum Methodology
- Customer Service

Education & Courses

LeetCode, Ongoing DSA Exercises / SQL, JavaScript

LeetCode 30 Days of Javascript (April 2026)

B.S. Computer Science, *Texas State University*, San Marcos. **Summa Cum Laude** (Summer 2024)

A.S. Computer Science, *Austin Community College*, Round Rock. **Summa Cum Laude** (Summer 2022)
